## DEFOAM

### GENERAL INFORMATION

For Use In:                               STEAM CLEANERS  
  EXTRACTORS  
  AUTOMATIC SCRUBBERS  
  WET VAC PICK-UPS

### DIRECTIONS

**CARPET** that has previously been cleaned will generally have a high degree of detergent build-up and should be sprayed lightly with **DEFOAM** in either a hand trigger sprayer or tank sprayer.

**DEFOAM** should be added to the recovery system tank and to the inside of the suction end of hose before using equipment; a few ounces is recommended.
