FLOOR SEALER

GENERAL INFORMATION

A tough sealer which can seal and protect a variety of floor surfaces as well as concrete, rick, ter-razzo, and other masonry surfaces. Helps prevent further floor wear by sealing he worn and porous surfaces. Improves the look of the floor by backing one coat of floor finish look like two.

DIRECTIONS

First thoroughly strip, clean, and rinse floor. Allow to dry. Apply SEALER with clean cotton mop in thin, even coating over entire floor surface. Dries and seals floor with hard impervious film. For extreme wear, abnormal water and detergent-resistance, re-apply second coat as top coat.

SPECIFICATIONS

Type.	Anionic
Color.	Rich White
Physical State.	Liquid
Odor.	Light Ammoniacal
Specific Gravity.	1.02
Solubility (in water).	Infinite
Flammability (Flash Point).	None
pH.	8.0-8.5
